Creative Timbers is a family owned and operated business based in Toowoomba whose vision is to cater for all types of timber requirements for residential and commercial projects in Australia. Our core values and capabilities include:-

- Providing products to suit our customers' demands without compromise to quality and
- Providing personal service and products on time to ensure a timely finish on projects.

DIFFERENTIATORS

We lead the way in

- Creating mouldings to the exact profile required by the customer
- Identifying and sourcing of all standard and exotic timber species – from suppliers with sound environmental credentials.
- Promoting innovative products such as modified wood and consulting with our customers to ensure that these products are right for your project.
- We package and care for your products so as you receive material undamaged and delivered to the correct address requested. Any special delivery requests are always respected.

The right equipment and facilities are essential to ensure that the material you get is exactly what you want – We have the machinery and the staff to handle your requests efficiently and to the standard you deserve.

Ask our satisfied customers – we always exceed their expectations and will do the same for you.
